Explanatory Note

This Report is organized by
program and by grant category
within each program. An
organization may receive
funds from more than one
program and from more than
one grant category within a
program. The index will
enable the reader to locate
each instance of financial
support for any organization.

Grant recipients are listed by
their legal names.

NYSCA AND THE REGRANT PROCESS

As a matter of policy, the New York State Council on the Arts, through several of our programs, supports regrants in order to broaden service and outreach to our constituents. What follows, then, is a brief description of our regrant programs.

The **Architecture, Planning and Design Program** offers two regrant programs. Regional technical assistance for the North Country is administered by the Essex Community Heritage Organization in Essex. The Program's main regrant effort is a partnership with the Preservation League of New York State to give statewide grants for historic structures and landscape reports and surveys of historic properties. In addition, the Architecture Program also administers an ongoing technical assistance fund with the New York Landmarks Conservancy serving as conduit.

The **Electronic Media & Film Program** offers several regrant initiatives. Through the Experimental Television Center in Owego, matching monies are made available for artists to appear with their work as well as for film and video screening expenses. Through Women Make Movies in Manhattan, funds have been awarded to assist in the distribution of completed audio, film and video productions. In addition, an initiative to promote media arts networking upstate with the assistance of Media Alliance in Manhattan, has been established, funding a variety of projects. During this period, the Program administered the final phase of a Technical Assistance Project for rural and inner-city organizations designed to strengthen the level of exhibition throughout the state. The National Endowment for the Arts also provided support for this effort.

Due to budgetary restraints, the **Individual Artists Program** rotates funding categories on an annual basis. In FY95, the program supported grants to Theater and Media artists. In addition to these project grants, the program regrants a portion of its allocation to the New York Foundation for the Arts for its statewide fellowship program and other services to individual artists. In FY95, 112 artists received fellowships.

The **Literature Program** funds Poets and Writers of Manhattan which, in turn, sponsors workshops and readings in all 62 counties of the State.

The Technical Assistance Program of **Special Arts Services** assists the institutional development of multicultural arts organizations throughout the State. With a two year grant from the National Endowment for the Arts and renewed support from the Council, the Technical Assistance Program is now a two-tiered initiative. Grants are made to emerging and developing multicultural arts organizations to improve critical managerial and organizational development issues with the assistance of a professional consultant or consultant team.

The **Visual Artists Program** provides opportunities for individual artists to develop new work through its discipline-specific regrant program in crafts, installation work, painting, photography, performance art, public art projects and sculpture. Administered by a number of nonprofit arts organizations throughout the State, these programs offer project funding and/or supportive workspace opportunities for artists to create and present new work. Additional regrant opportunities are currently available to independent curators through the Delaware Valley Arts Alliance in Narrowsburg.

ARCHITECTURE, PLANNING AND DESIGN

The Architecture, Planning and Design Program's mission is to increase the awareness and appreciation of the built and designed environment and to advance excellence and innovation in the design and planning fields. The program uses four strategies to achieve its mission: it offers institutional funding to organizations that provide ongoing services and programs in the design fields; it supports public education projects about architecture and design; it gives funds to a wide variety of nonprofits and municipalities to hire professionals in the design fields; and it supports and catalyzes the design fields themselves through direct grants to individuals.

ARTS IN EDUCATION

The major goal of the Arts in Education Program is to involve teachers, artists and arts professionals in joint efforts that will result in direct, active arts experiences for children. The Program is a cooperative effort between the Council and the State Education Department, with the Council as the administering agency. Cultural institutions are funded to create collaborative curriculum-based arts or environmental science programs throughout the state for students from pre-kindergarten through twelfth grade.

CAPITAL AID

The Capital Program makes grants and low interest loans available for the improvement, expansion or rehabilitation of existing buildings owned or leased by nonprofit cultural institutions that receive programmatic funding from the Council. The Capital Program has become a critical source of support for essential capital projects, helping many of New York State's cultural organizations ensure that their facilities are safe, comfortable and accessible to all New Yorkers.

DANCE

The Dance Program's primary goal is to help make possible dance performances of high professional standards for the people of New York State. Dance organizations eligible for support include ballet, traditional, modern and avant-garde, ethnic, jazz and historical dance companies as well as dance service organizations and consortia serving management needs. Of special interest in 94/95 was the funding of a pilot project, the New York State Task Force on Partnerships in Dance, which is dedicated to increasing the level of dance activity around the state (See DANCEWORKS listing under services to the field category).

1994-95 Expenditures by Grant Category

ELECTRONIC MEDIA & FILM

The Electronic Media and Film Program is dedicated to furthering the artistic, conceptual and administrative growth of the fields of audio, film, radio, television and video. Grants in this program are directed toward presentation, distribution, preservation and services necessary to allow its diverse constituencies to develop in direction appropriate to each medium, activity or community.

FOLK ARTS

The Folk Arts Program supports activities that help perpetuate the state's living cultural heritage of the folk arts. It is committed to maintaining the extraordinary cultural and stylistic diversity of New York's traditional arts. The Program's funding reinforces traditions within the ethnic, regional, religious and occupational communities within which they originate. Support from the Program also provides opportunities for general audiences to experience the folk arts of different cultures, which express their ways of life, shared values and sense of beauty. Through Folk Arts Program funding, cultural organizations organize presentations of folk arts and artists, document traditions and develop interpretive programming.

INDIVIDUAL ARTISTS

This year the Individual Artists Program supported over 56 artists through direct project support, as well as hundreds of artists through the Statewide Fellowship and S.O.S. Program. Among the projects funded through Theatre Commissions was support for En Garde Arts to commission Jeff Jones to write "J.P. Morgan Saves the Day" which was performed outside in the Financial District of Manhattan. Through the Media Production Category, interactive Cd-ROM projects were supported for the first time, as well as support for a wide range of radio, audio, video and documentary works. This year, over \$1,000,000 to the New York Foundation for the Arts for the Fellowship Program, and the S.O.S. (Sudden Opportunity Stipend) Program.

LITERATURE

The Literature Program supports organizations that promote the creation, publication and distribution of important writing and that encourage the appreciation of literature and active participation in the literary arts by the general public. The program directs assistance to writers principally through support of readings and workshops, literary magazines and non-commercial book publishers, residencies and translation projects. In FY95, the program also provided funding for a series of developmental and collaborative special projects, including a statewide conference, intended to promote artistic and administrative exchange among literary organizations as well as to raise public awareness of the State's extensive literary resources and to bring new programming to underserved audiences.

counties of New York State.*

MUSEUMS

The Museum Program supports activities which ensure the preservation, care and interpretation of New York State's cultural heritage. It funds a broad spectrum of museums, including art, history, science and children's museums as well as organizations providing services for museums. The Program emphasizes responsible stewardship through collections management, and public access to high quality exhibitions and educational programs. Technical assistance provided by the Program enhances the professionalism of all aspects of museum programming, management and operations. Recognizing the need to broaden audiences for all museums, the Program stresses support for activities which interpret the art and history of traditionally underserved populations.

MUSIC

The Music Program supports the production and performance of musical events of high professional caliber for the people of New York State. The program also supports music service organizations, radio production and broadcast, recordings, projects in new music technology and a musical instrument revolving loan funds.

PRESENTING

The Presenting Organizations Program provides support to both established and developing organizations that present, pay and promote artists and ensembles in music, dance, theatre, mime and performance art for public appearances. The Program's main purpose is to help make possible culturally diverse performances of high professional standards and artistic excellence for the people of New York State. Special consideration is given to organizations that have as their main purpose and function the development, promotion and dissemination of the arts for audiences of all ages.

SPECIAL ARTS SERVICES

The Special Arts Services Program seeks to enrich the artistic/cultural pluralism of New York State by supporting arts activities within the African/Caribbean, Latino/Hispanic, Asian/Pacific Islander and Native American/Indian communities, as well as other ethnic groups wishing to perpetuate distinct traditions. The program fosters the development of artists and organizations and their outreach efforts to specific communities, by improving access to arts training opportunities and cultural heritage education through performances, exhibitions, workshops and special initiatives.

DECENTRALIZATION

Local Decision making is the basic principle of the Decentralization Program in supporting a wide range of community-based professional and avocational arts programs in diverse communities throughout the state and, through sponsoring organizations, to help support the work of local individual artists. The goal of the Decentralization Program is to support the continued development of local cultural resources responsive to community cultural needs.

STATE AND LOCAL PARTNERSHIP

Local Arts Organizations/ Service Organizations Program

The State & Local Partnership Program supports local cultural development in communities around the state with the goal of increased awareness of the arts through public information, innovative programming and community/regional cultural planning. Central to this goal is an active network of local arts councils providing services and activities to county-wide or regional constituencies. The program also supports community-based multiarts centers and arts service organizations.

1994-95 Expenditures by Grant Category

Category	Requests Funded	Total Amount
ADMINISTRATIVE SALARIES	12	112,225

THEATRE

Through its funding categories, the Theatre Program seeks to both preserve and advance theatre in its many forms -- including contemporary, classical, alternative, music theatre and theatre for young audiences. In addition to the support for general operating expenses and production costs of producing theatres that constitutes the majority of grants, the Program offers theatres support for Shared Resources -- a funding category designed to encourage collaborative solutions to current economic and artistic challenges. The New Theatre Advancement category is structured to provide incentives and support for emerging theatre groups. The Services to the Field Category supports the organizations that provide technical and developmental support to theatres, artists and audiences. This includes organizations that, through newsletters and publications, provide a forum for the exchange of ideas and information about the theatre. The awards for Special Developmental Projects reflect two facets of the Programs' service goals -- audience development and education, and support for emerging companies.

CHALLENGE '95

The 94-95 Challenge Program was initiated for New York City based organizations only which were required to match a combination of funds allocated by the New York City's Department of Cultural Affairs and the New York State Council on the Arts. No new programming was required; in every instance, organizations expanded on existing programs or amplified their audience development and promotion.

PRIMARY ORGANIZATIONS

Primary organizations are defined as "eligible arts organizations which, by the quality of their arts services, their stature as arts institutions on a state or national level, or by the importance of their contributions to a significant population or the arts discipline in which they specialize, are particularly important to the cultural life of New York State, and the loss of which or the diminution of services would, in the opinion of the Council, constitute a serious artistic loss to the people in the State. In compliance with a legislative mandate, 50% of the Council's local assistance funds were awarded to the following cultural organizations and this list was filed with the State's Division of Budget for the 1994-95 fiscal year.

1994-95 FUNDING BY COUNTY

The Council's appropriation act mandates that "the residents of each county receive arts services proportionate to at least 40 cents per capita of population in each county, except that Council grant standards of artistic quality and administrative competence must be met." In 1994-95 the Council awarded grants to organizations in each of the state's 62 counties in the amounts detailed below. The required amount is based on the 1990 census figures. The Council's response to the mandate is made through grants to organizations which apply to any and all Council Programs through the normal application process. In addition, grants are made to organizations that provide arts services on a statewide basis. Grants for these purposes are shown at the end of the list as "Statewide."

County	Required	Funded	County	Required	Funded
